

DRUPAL PLUGIN

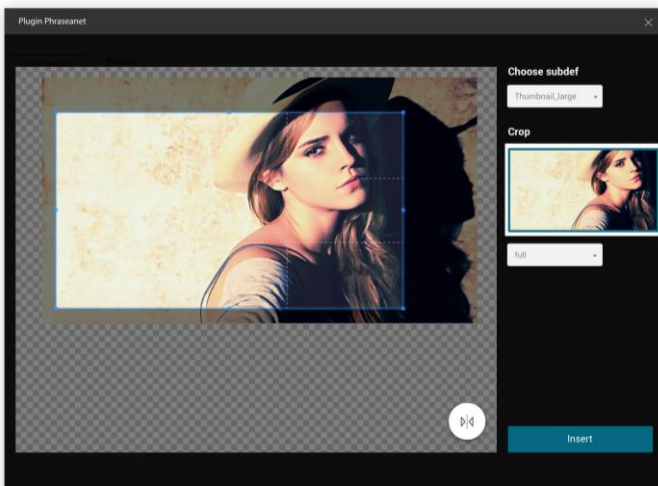

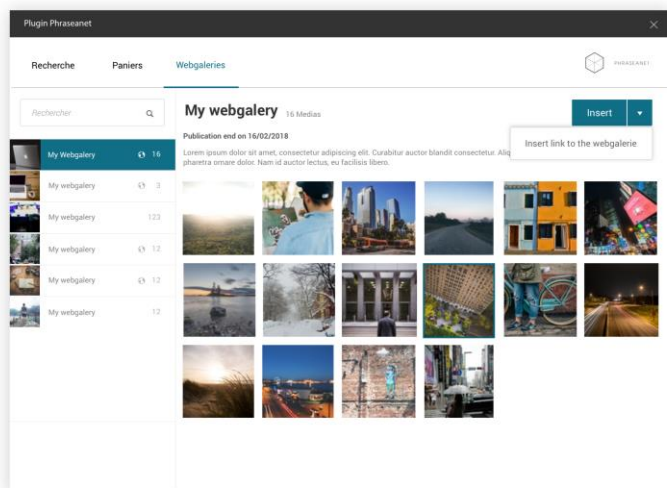

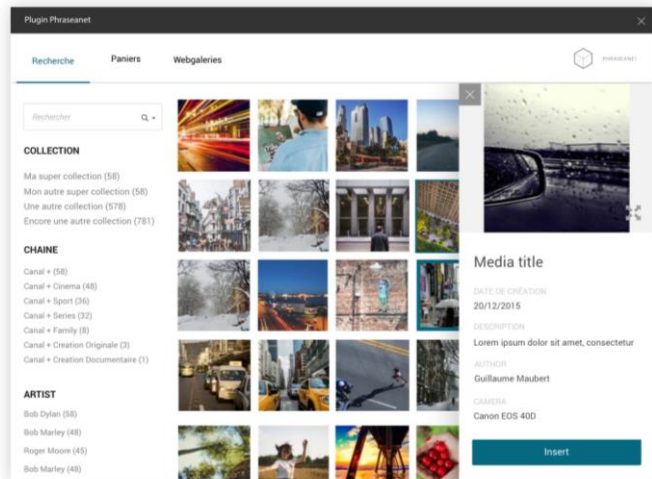

ACCESS PHRASEANET FROM A DRUPAL SITE, ILLUSTRATE ARTICLES

Drupal, a CMS able to manage complex projects and very high traffic sites, now gets its Phraseanet plugin.

This plugin, available for Drupal 7 and 8, allows the editors to view and use the documents managed by Phraseanet directly from the CMS.

Advanced features allow to setup Phraseanet type fields which will receive the permalink of a media to use it in a specific situation.

Compliant with Phraseanet 3.8 & 4.0

From Drupal:

- Search and display media, baskets and WebGalleries
- Select the resolution to use: original document, preview, thumbnail, mobile
- Insert links in articles or in custom fields (image or video in background for example)
